VENGEANCE™

VENGEANCE™ X7 SERIES

HARD ARMOR RIFLE SHIELD

The VENGENCE™ X7 series is the next generation hard armor rifle shield.

The X7 hard armor rifle shield traces its genealogy all the way back to the original Vengeance series handgun shields first deployed by the United States Marshal Service. Utilizing the same curved ballistic platform and specialized dimensions of 23"x34" as a tactical entry shield, the X7 transitions the user from handgun to rifle protection without any additional training. Shown with optional Elzetta rifle rated horizontal handle with integrated 1000 lumen LED lighting.

Independently tested to various NIJ 01.08.01 threat level III rifle, special threats and ASTM RF1 test protocols in both ambient and elevated temperature conditions up to 160°F. X7 provides robust ballistic protection against 7.62x51 M80 Ball, 5.56 M193, 7.62x39 PS Ball Russian as well as 7.62x39 Chinese Type-56 Mild Steel Core.

Legendary Performance, MISSION DRIVEN - PURPOSE BUILT

STANDARD FEATURES

- Curved ambidextrous weapon mount platform
- Patented VENGENCE™ Viewport and ballistic bezel system
- Straight Bar Handle
- Custom Molded Foam Armpad
- High Density Impact Reducing Forearm Pad
- 100% Composite Ballistic Construction
- NIJ 0108.01 Rated III
- Special Threat III+ and RF1
